

Jayden Leuciuc

Bio:

A self-taught developer looking for a front-end/ full-stack web developer position. Through creating dozens of small-scale projects, I have gained experience fit for employment. Employment would allow me to build upon these skills and technologies.

Email | Github | LinkedIn | Website

Skills:

Html, Css, Node.Js, Express.Js, Sass, React, MongoDB, Git (MERN)

Experience:

December 2019- Present

E-Commerce Clerk

- Performed as one of the fastest workers in the Knoxville region of Kroger stores through recorded statistics and metrics.
 - Filled customer's online orders with a high degree of speed and precision through a POS
 - Communicated with customers about possible courses of action with their order to ensure customer satisfaction.
 - Trained new employees, notifying them about best practices and general information about efficiency.
 - Adapted to and helped create new policies used by other employees.
-
